Organises

1st National Conference on Spinal Muscular Atrophy (SMA)

Date: 9th June 2019 | Venue: Science City

Preface

Peerless Hospital And B. K. Roy Research Centre and Cure SMA Foundation of India organises the First National Conference on Spinal Muscular Atrophy (SMA) on the 9th June 2019 at Science City.

This conference is aimed at sensitising doctors and public alike that SMA can no longer be considered an incurable disease, and new treatments available should be made accessible to these children. The children need early diagnosis and multispeciality care for a better life.

The conference is aimed at Generalists, Specialists and Postgraduate trainees and parents of children with SMA which will discuss current evidence based treatment for Spinal Muscular Atrophy and new areas of research in SMA and efficacy of drugs available.

The Cure SMA Foundation of India is a unique parent group that deals with children with Spinal Muscular Atrophy and helps them to get the best available care.

Peerless Hospital has been running a SMA Clinic for over a year where these patients are treated jointly by Paediatricians, Pulmonologists, Neurologists and Spinal Surgeons to assure them better quality of life.

The organising committee cordially invites you to be a part of this major clinical and social event and help it make a major success.
